

Farischa Makay

Junior Consultant | Android Developer | Kotlin

 Jakarta, Indonesia

PROFESSIONAL SUMMARY

Junior IT Consultant developer with 1 years and 8 months experience. I've experience in Android application development, skilled in implementing new features, fixing bugs, and ensuring smooth user experiences through well-executed UI/UX practices. In addition to mobile development, also proficient as a Fullstack Web Developer, experienced in building scalable web applications using modern technologies such as React.js using Next.js for frontend and NestJS for backend. Adept at working in cross-functional teams, quickly adapting to project requirements, and delivering efficient, user-focused solutions. Highly committed to code quality, continuous learning, and driving value through technology.

EDUCATION

President University (2019 - 2023)

Bachelor in Information Technology (GPA : 3.66/4.00)

Phincon Academy 2023

Android Development path

Bangkit Academy 2022

Mobile Development learning path

SKILLS

Technical Skills

- Kotlin & Android Development
- Fullstack Web Development (React Js, Next.js, Typescript, Nest.js)
- Jetpack Components (ViewModel, LiveData, Room, etc.)
- API Integration
- Database (Firebase, PostgreSQL, MySQL)
- Modularization & Performance Optimization
- Unit & UI Testing
- GIT

Soft Skills

- Problem-Solving, Communication & Time Management
-

PROFESSIONAL EXPERIENCE

PT PhinCon

Oct 2023 - Present

Android Developer (1 years 5 months)

Project: MyTelkomsel - Indihome

Description: Assigned to the TDW team, I contributed as an Android Developer of the MyTelkomsel app, specifically focused on IndiHome-related features. I worked in an agile environment with cross-functional teams including UI/UX designers, solution architects, QA, and backend developers to deliver high-quality, scalable, and maintainable Android app.

My Contributions:

- Feature Development – Implemented new features based on sprint planning and UI/UX designs, ensuring smooth functionality and user experience.
- Bug Fixing & Optimization – Investigated and resolved issues reported by the QA team, improving application stability and performance.
- Code Quality & Best Practices – Applied clean code principles, and best practices to ensure maintainability and scalability.
- Collaboration with Solution Architects (SA) – Analyzed technical documentation in Confluence to align with system architecture and business requirements.
- Performance Optimization – Enhanced application performance by reducing memory leaks, optimizing API calls, and improving UI rendering efficiency.

Fullstack Developer (3 months)

Project: Raisecall – Client: Manajamenet

Description: Assigned as a Fullstack Developer to work on the Raisecall application project for the Client-Management. Collaborated with the development team to build and enhance key features of the application, ensuring they met business requirements and design specifications.

Responsibilities:

- Collaborated with developers and designers to design and develop application features.
- Built responsive user interfaces using React JS. (Framework Next Js)
- Developed and maintained backend APIs using NestJS.
- Integrated frontend and backend systems to ensure seamless data flow.
- Wrote clean, maintainable, and well-documented code.
- Performed debugging and bug fixing based on QA and user feedback.

Bangkit Academy

Contributor as Advisor Capstone Project

Aug 2024 - Jan 2025

- Mentored and guided capstone teams to successfully complete their projects on time while maintaining high standards of development.
- Helped teams integrate machine learning models into their Android applications using TensorFlow Lite (TFLite) and ML Kit, ensuring efficient on-device inference.
- Leveraged my expertise to help teams gain deeper insights and find innovative solutions to their technical challenges.
- Assisted teams in choosing the most suitable technologies and tools tailored to their specific problem statements, ensuring scalability and efficiency.
- Provided insights on agile development practices, sprint planning, and version control (Git) to help teams manage their projects effectively.

Mobile Developer Mentor

Feb 2023 - Aug 2024

- Lead and assist a cohort of 25 students in a class through a weekly session.
- Provide collaborative support to learn and support each other.
- Collaborating with other mentors and contributors.
- Provide a supportive learning environment that will lead to a high graduation rate among your students, which is 89% at minimum

CERTIFICATIONS

Google Certified Associate Android Developer Kotlin by Google developers (Nov 2022 - Nov 2025)

Skill : Proficiency in Kotlin, Testing, Database, Networking, Services for android development

Mentorship Appreciation by Bangkit Academy (Issued Jan 2024)

Skills : Effective communication, Problem Solving, Adaptability, Time Management

Belajar Penerapan Machine Learning untuk Android by Dicoding Indonesia (May 2024 - May 2027)

Skills : Web API, Retrofit, ML kit, TensorFlow Lite, Firebase ML

Belajar UX Design (May 2022 - May 2025)

Skills : UX Research, User Interface Prototyping, Figma.

Technical Support Fundamentals by Coursera (Issued Apr 2023)

Skills : Problem-Solving, Customer Support, Troubleshooting.
